## Our History

In September 2000, a group of concerned Charleston County landowners wanted to help to educate their friends and neighbors and the negative and intrusive effects of a new comprehensive plan that was going to determine the future development of their area.

Similar land use concerns quickly spread throughout the Lowcountry and eventually to the doorstep of landowners in the Midlands and the Upstate.

In 2001, the South Carolina Landowners Association expanded its activities and launched its statewide effort to educate South Carolinians about their property rights...And to fight for them.

**"... NOR SHALL PRIVATE PROPERTY BE TAKEN FOR PUBLIC USE, WITHOUT JUST COMPENSATION ."**

-U.S. CONSTITUTION, 5TH AMENDMENT

## Our Mission

The South Carolina Landowners Association's mission is to promote property rights through advocacy and education. South Carolina Landowners Association analyzes legislation and provides perspective for policy makers. In addition, South Carolina Landowners Association representatives travel the state educating citizens who are confronting land use issues in their individual counties.

South Carolina Landowners Association is a designated IRS Section 501 (C)(3) organization under which your contributions are tax deductible.

## Are you a homeowner? Do you own farmland? Do you own acreage in a rural area?

If so, it is important that you keep a close eye on down zoning, wetlands issues, takings and pending legislation that could affect the value of your property.

Property rights advocacy is a time-consuming and stress laden task, but it is extremely important to the protection of your property rights.

The South Carolina Landowners Association is able to provide elected officials – and other policy makers – with balanced perspective that clearly explains the consequences of property related legislation, regulations and local ordinances. South Carolina Landowners Association also hosts conferences featuring world-renowned land-rights experts who can help you in the fight against unjust infringements of your rights.

**Educating the public on the effects of "Smart Growth," downsizing; land restrictions; higher housing prices; and the restraint on citizens to make their own choices.**

**Supporting Senate bill 0280 could make local governments pay for land that they zone out of use.**

**Informing legislators on how new wetlands regulations could affect thousands in the Lowcountry.**

**"PROPERTY IS SURELY A RIGHT OF MANKIND AS REAL AS LIBERTY."**

-JOHN ADAMS,  
2ND U.S. PRESIDENT
